MEMORANDUM FOR:

[REDACTED]

25X1

SUBJECT:

CCPC

1. Thank you for your note. In the meantime, I told [REDACTED] (who has been bugging me to come up with a solution) that my basic problem in trying to cope with his papers to me on the subject is that it all seems so needlessly complicated.

25X1

2. I don't think anyone will object to putting an end to the CCPC which has simply outlived its usefulness. Offhand, however, I do not understand why additional committees or other such devices are required to be established in its wake. With the NIOs and the IC Staff and other committees functioning as they do, can't the CCPC responsibilities merely be assigned to existing components? I hope this is the direction in which we can head and [REDACTED] is now drafting something within this guidance.

3. Could you take this on and work with [REDACTED] in devising whatever future arrangements are best?
